Find a Study Buddy! It motivated me and helped me ID what sections and topics I needed to study more (and what I could study less).
Studying for and passing the AICP exam was not only a major professional milestone, but also a great reason to reexamine many of the theories and foundations of planning underlying and supporting my daily planning practice.
Memorization sucks, and unfortunately that's a lot of what this exam requires. Find association games that will stick in your brain.
GOOD LUCK!
