Breaking Down Silos: Integrating Water into Land Use Planning

Webinar Series
12:00 pm – 1:00 pm MT

March 14, 2017
Integrating Outdoor Water Use and Landscape Requirements into Codes & Plans

April 11, 2017
Addressing Water Efficiency in Planned Unit Developments (PUDs)

Learn More About...

- Addressing outdoor water use and the ways that landscape ordinances fit into long range planning efforts.
- Which landscape ordinances give the biggest bang for the buck.
- How planners can do a better job of fitting landscape ordinances directly into the planning process.
- How low water landscape codes can increase property value.
- Problems with Planned Unit Developments (PUDs) and how to make them a better tool.
- How PUDs can be strengthened to include water efficiency standards.
- Case Studies from various Colorado communities, including the Town of Castle Rock, City of Aurora, Mesa County, and the City of Westminster.

SPEAKERS INCLUDE:

Kevin Reidy, State Water Conservation Technical Specialist; Rick Schultz, Water Conservation Specialist, Castle Rock Water; Linda Dannenberger, Planning Division Director, Mesa County; Lyle Whitney, Water Conservation Supervisor, City of Aurora; Don Elliott, FAICP, Clarion Associates
